“Cyberbullying” is when the Internet, cell phones or other devices are used to send or post text or images intended to hurt or embarrass another person.

Cyberbullying can be as simple as continuing to send e-mail to someone who has said they want no further contact with the sender, but it may also include threats, sexual remarks, hate speech, ganging up on victims by making them the subject of ridicule in forums, and posting false statements as fact aimed at humiliation.

Is cyberbullying a crime? YES

- * A cyberbully could be charged with Intimidation and Harassment
- * A cyberbully could spend time at the Juvenile Detention Center

Are you the victim of cyberbullying?

Some youth who cyberbully:

- * Pretend they are other people online to trick others
- * Spread lies and rumors about victims
- * Trick people into revealing personal information
- * Send or forward mean text messages
- * Post pictures of victims without their consent

How to stay safe and prevent cyberbullying

Help prevent cyberbullying by doing the following:

- * Refuse to pass along cyberbullying messages
- * Tell friends to stop cyberbullying
- * Block communication with cyberbullies
- * Report cyberbullying to a trusted adult
- * Speak to other students and teachers to develop rules against cyberbullying

Llamamos “Ciberacoso” a la situación cuando alguien utiliza Internet, teléfonos móviles u otros medios de comunicación para enviar o reproducir un escrito o imagen con la intención de hacer daño o humillar a alguien.

El ciberacoso puede ser tan simple como continuar enviando correos electrónicos a alguien que ha dicho que no desea recibir más mensajes, pero también puede incluir comentarios sexuales, degradantes e intolerantes, amenazas, atacar a la víctima en grupo para burlarse de ella en foros y publicar declaraciones falsas como si fueran verdad con el fin de humillar.

¿Es el ciberacoso un delito? SI

- * Un “cibermatón” podría ser acusado de Intimidación y Acoso
- * Un cibermatón podría cumplir una condena en el Centro de Detención de Menores

¿Eres una víctima de ciberacoso?

Los jóvenes que cometen ciberacoso:

- * Fingen ser otra persona en Internet para engañar a los demás
- * Propagan mentiras y rumores acerca de sus víctimas
- * Engañan a la gente para que revelen información personal
- * Envían mensajes de texto dañinos
- * Publican fotos de las víctimas sin su consentimiento

Como mantenerse a salvo y prevenir el ciberacoso

Los jóvenes que previenen el ciberacoso hacen lo siguiente:

- * Se niegan a divulgar mensajes del ciberacoso
- * Dicen a sus amigos que dejen de cometer ciberacoso
- * Bloquean la comunicación con los cibermatones
- * Denuncian el ciberacoso a un adulto de confianza
- * Hablan con maestros y otros alumnos y desarrollan normas contra el ciberacoso
